

LVCT Health is an established Kenyan NGO that utilizes research to inform policy reform advocacy and strengthen HIV service delivery. We optimize our impact on the HIV/AIDS response by building capacity of partners and pay special attention to vulnerable groups and populations with special needs. Our focus is on the scale-up of quality-assured HIV counselling, testing and care services.

We are looking for a dynamic, well qualified and motivated individual to fill the following vacant position:

<p>POSITION: SENIOR TECHNICAL ADVISOR - GBV STAGBV/LVCT/05/2018 REPORTING TO: HEAD OF PREVENTION, POLICY & PARTNERSHIPS LOCATION: NAIROBI</p>

JOB PURPOSE

The Senior Technical Advisor - GBV will be responsible for providing technical and programmatic expertise to the GBV program and related work at LVCT Health while ensuring alignment to the organization's strategy and respective projects goals as agreed on with donors. Responsible for providing technical direction and guidance to the program teams and to ensure proper planning and coordination of program activities to ensure achievement of targets and intended impact.

ROLES & RESPONSIBILITIES:

- Contribute to the development/establishment of GBV program goals, objectives, strategies and results-based planning through research, collection, analysis and reporting.
- Provide technical leadership and managerial oversight for GBV projects and ensure the efficient implementation of activities and the timely reporting of those activities to the organization and donors.
- Develop, implement and train on SOPs and guidelines relevant for GBV programming at various levels.
- In liason with M & E and other program teams, develop tools for collecting GBV data and facilitate analysis.
- Lead development of donor deliverables and other reports and ensure that they are of high quality, timely and are results-oriented.

- Participate in relevant National and County forums to provide technical assistance for the GBV agendas and share LVCT Health experiences and learning.
- Evaluate GBV program effectiveness and determine corrective action as-needed to improve goal achievement.
- Identify lessons learned and best practices for external application and dissemination.
- Develop and maintain strong working relationships and collaborations with other implementing and technical partners including the Ministry of Health, partners, donors, clients and other stakeholders as required.
- Represent the organization in public and professional circles, locally and internationally through meetings, conferences and presentations relevant to GBV areas of work.
- Resource mobilization for GBV program areas.
- Ensure GBV programme compliance with donor and organization rules and regulations.
- Provide guidance, technical support and build capacities of program staff and partners on GBV matters and advise on technical issues.
- Contribute to the project and GBV program knowledge management system.

QUALIFICATIONS:

- Master's degree in public health, social work, gender studies, international development or related degree.
- A minimum of 7 years' working experience in program design, implementation, monitoring and evaluation implementing gender-based violence interventions.
- Demonstrated experience of GBV response and prevention programming as well as in managing an integrated approach to supporting survivors of GBV, including the clinical, psychosocial, legal and advocacy components.
- Demonstrated ability to build and maintain relationships with senior-level colleagues, particularly interacting productively, proactively, and comfortably with government agencies, NGOs, private sector groups, donors and community stakeholders.
- Must have a proven track record of building teams and fostering collaboration in order to achieve goals, meet milestones and produce high quality deliverables.
- Track record of strong commitment to sharing knowledge, documenting experiences, supporting creative initiatives and sharing credit.
- Demonstrated experience in program management and administration and contract compliance.
- Demonstrated experience in conducting research studies on GBV will be an added advantage.
