HIV Testing Services

784,838 HIV tests done in the year

12,899 (1.6%) Tested HIV positive

HIV positivity rate for newly tested Key and Priority Populations

26,202 HIV self test kits distributed through our facilities

Cervical Cancer screening and treatment

2,014 Individuals were screened for cervical cancer

100 (5%) Treated for suspicious lesions

HIV Care and Treatment

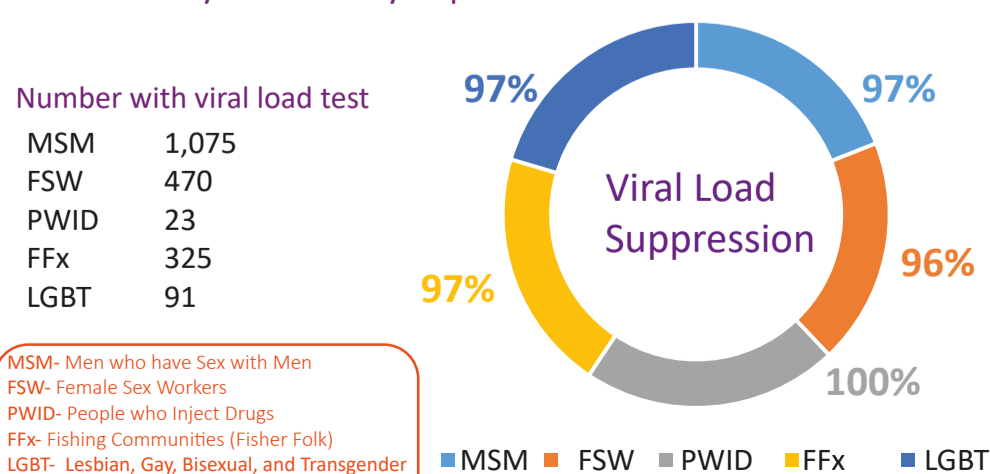

10,183 (79%) Clients linked to care

1,929 NEW clients linked to LVCT Health care clinics

8,039 Number of individuals current on antiretroviral treatment (ART) at our clinics

2,139 (26%) Key Population (KP) currently on antiretroviral treatment (ART)

Key and Priority Population Viral Load Results

Gender Based Violence

22,593 GBV survivors were offered services at LVCT Health supported facilities/DiCEs during the year.

Types of violence reported

20,818 Physical/Emotional Violence

1,775 Sexual Violence

Research

7 Research studies undertaken (and on-going) in the year on:

1. Maternal & Child Health Systems Strengthening Intervention (*4byFour study*)
2. Quality Improvement in Community Health (*SQALE*)
3. HIV Product Development study on Suitability for inclusion in the UniGold TM HIV Complete Kit
4. HIV prevention product study on Micro Array Patches (MAPS) for PrEP
5. Assessing Health Care Providers' Knowledge, Attitudes and Practices relevant to PrEP service provision (*OPTIONS*)
6. Accountability and Responsiveness in Informal Settlements for Equity (*ARISE*)
7. Post Rape Care Services for Children

Strengthening Community Health Systems

In the year 2018-2019 we worked with:

- 27 community units in 9 sub-counties in Nairobi, Kitui and Migori counties to improve community health strategies on maternal, newborn and child health.
- We offered training and technical assistance to partners implementing health projects in Nairobi, Migori and Baringo counties.
- Supported Machakos County in the roll-out of UHC towards establishing 250 community units by training 174 community health volunteers.

“Our Quality Improvement model has been adopted by Nairobi county for strengthening capacities of health workers in the county.”

Youth Programme

13,210,764

Adolescent and young people reached through our social media platforms with SRH, HIV and GBV information.

1190 Call Centre

Policy Reform Support

4 National policy documents adopted with technical assistance from LVCT Health

3 County strategic documents launched through LVCT Health technical leadership

Capacity Strengthening

11 Organisations sub-granted and offered technical support to deliver HIV/SRH/GBV services

7 Counties supported to establish Youth Advisory Councils for Health (YACH)

Training Institute & WEMA Kazini

972

Individuals trained on HIV/ GBV/SRH and other health related courses

17

Organisations sensitized on HIV prevention, healthy living and lifestyle diseases and offered confidential HIV testing and counseling services
